

Indigo children ~ children believed to possess special, unusual and sometimes supernatural traits or abilities. #1 best-selling author SAFFINA DESFORGES & Karen Osbourne bring you the first book in a series like no other. Seven kids - total strangers - inexorably connected through space and time, each unaware of their unique gift. A gift so precious, the fate of the universe depends on it. Its hard enough being a teenager, without someone wanting your soul. Every once in a lifetime, something special happens - but not to Jax, so when she receives a cryptic message from a boy on the other side of the globe telling her that not only is her life in danger - but so are the lives of millions of others - she listens. Someone is stealing the colours from the special kids of the world and he doesn't mean to use it for the good of Mankind. Louis Ortega is the ultimate adversary: ruthless, calculating and unerring in his belief that he is destined for supreme greatness, but perhaps most frightening of all - he's been undefeated for centuries. As Jax starts to realise that she might not be quite as ordinary as she thought, she soon finds out that she isn't the only one. There are others like her. Other INDIGO KIDS. Alone, they are nothing, together, they might just save the world. Answer, my children - answer as if your heart would break. Answer the shades, the hues, the petrol blues. Answer the call... of Indigo. PARAGON (Book Two) is out now. NIRVANA is coming soon. LOST ONES, SIRENS SONG & THE LAST CHORD will follow. ~For fans (young and not-so-young) of: Veronica Roth, Amanda Hocking, Suzanne Collins... Science fiction and fantasy, paranormal mystery, young adult paranormal romance, end of the world, coming of age, contemporary fiction and time travel. Indigo Kids has something for everyone. says Ali Ware, 25 from GB. I was expecting your run of the mill Young Adult Fantasy series, but I was wrong!
